

## **Montana Fish, Wildlife & Parks**

Ladies and Gentlemen:

Recently you received documents regarding the Montana Fish, Wildlife & Parks (FWP) proposal to purchase a conservation easement from Voegele's Inc., owners of Riverdale Ranch. This conservation easement constitutes 850 acres in Cascade County, Montana. The land is located approximately 5 miles south of Ulm along the Missouri River.

Comments received regarding the Riverdale Ranch Conservation Easement Proposal are summarized in the enclosed Decision Notice. No modifications were made in the documents you received as a result of the public review period. Please consider your previous copies of the Environmental Assessment and Management Plan as final.

It is my recommendation to purchase a conservation easement from Riverdale Ranch utilizing FWP Habitat Montana and Upland Game Bird Program dollars, along with additional partner dollars, subject to approval by the FWP Commission. The FWP Commission will be asked to approve the purchase of this easement at their meeting on October 7, 2010. The Montana Board of Land Commissioners will ultimately have final vote at their regularly scheduled meetings in October or November, should the FWP Commission approve the conservation easement

Thank you for your interest and involvement.

Sincerely,

A handwritten signature in black ink, reading "Gary Bertellotti". The signature is fluid and cursive, with the first name "Gary" and last name "Bertellotti" clearly distinguishable.

# **Decision Notice Riverdale Ranch Conservation Easement Environmental Assessment**

Prepared By:  
Montana Fish, Wildlife & Parks  
Region 4 Wildlife Division  
4600 Giant Springs Rd.  
Great Falls MT 59405

September 15, 2010

## **INTRODUCTION**

Montana Fish, Wildlife & Parks (FWP) has the authority under law (MCA 87-1-201) to protect, enhance and regulate the use of Montana's fish and wildlife resources for public benefit now and in the future. In 1987, the Montana Legislature passed House Bill (HB) 526, which earmarked hunting license revenues to secure wildlife habitat through lease, conservation easement or fee title acquisition (MCA 87-1-241 and 242). This is now referred to as FWP's Habitat Montana Program. Habitat Montana recognizes that certain native plant communities constituting wildlife habitat are worthy of perpetual conservation. Those communities include intermountain grasslands, sagebrush grasslands and riparian corridors. Riverdale Ranch includes such habitats and warrants conservation considerations. A conservation easement was offered to FWP by Voegelé's Inc., owners of Riverdale Ranch. This offer reflects the landowner's desire to maintain and protect the family's agricultural and ranching lifestyle, while maintaining and/or enhancing wildlife habitats. This easement would ensure the property remains in private ownership and operation, while preserving important agricultural lands, wildlife habitats, open space and historic sites. The easement would also guarantee reasonable public access for hunting and wildlife viewing on the project area. As with other FWP property interest proposals, the Montana Fish, Wildlife & Parks Commission must approve any easement acquisition proposed by the agency. In addition, the Montana Board of Land Commissioners is also required to review and approve the Department's proposal for this conservation easement acquisition as this action has a value greater than \$100,000 and is larger than 100 acres. This Decision Notice is part of that evaluation process.

Since Riverdale Ranch meets and/or exceeds all qualifications of the Habitat Montana program, the FWP Region 4 Supervisor recommends that the Fish, Wildlife & Parks Commission approve the purchase of the proposed conservation easement from Voegelé's Inc.

## **MONTANA ENVIRONMENTAL POLICY ACT PROCESS**

FWP is required to assess impacts to the human and physical environment under the Montana Environmental Policy Act (MEPA). The Riverdale Ranch Conservation Easement proposal and its effects were documented by FWP in an Environmental Assessment.

## PUBLIC COMMENT

A public comment period for the EA was established from August 10 through September 10, 2010. Public notice of the proposed action were offered to approximately 50 newspapers and news outlets in the state, and was also placed on the FWP website. A public meeting was held at the Ulm School on August 24, 2010. Approximately 75 copies of the Environmental Assessment were distributed to adjacent landowners, sportsmen groups, MT Stockgrowers, County Commissioners and other interested parties. Copies were available at the FWP Region 4 Headquarters during indicated comment period.

All public comments received remain on file at the Great Falls FWP office and are available for public review. Consideration and evaluation of public comment is distilled in the attached Public Comment and Issues Addendum to the EA.

**Public Meeting:** A public meeting was held at the Ulm School on August 24, 2010 having 12 individuals attending. Additional FWP representation included: Gary Bertellotti - Region 4 Supervisor, Graham Taylor - Region 4 Wildlife Manager and Cory Loecker - Region 4 Great Falls Area Biologist. Landowners were also present. Meeting officer Graham Taylor explained the format and purpose of the meeting. Copies of the EA and Management Plan were made available to all attendees, as was a comment sheet. Following the information presentation of the draft EA and Management Plan by wildlife biologist Cory Loecker, an informative question and answer session ensued. Summary of comments and questions from the public meeting are detailed in the Public Comment and Issues Addendum attached to this Decision Notice.

**Written Comments:** Written comment totaled 30 responses. Twenty-seven (27) responses endorsed the "Proposed Action" alternative of the draft EA, with three (3) respondents opposing the "Proposed Action" of FWP purchasing a Conservation Easement from Riverdale Ranch, choosing Alternative A - "No Action". Further analysis of comment follows:

Comment supporting FWP purchase of conservation easement (support "Proposed Action")	27
Comment opposed to FWP purchasing conservation easement (support "No Action")	3
Total comments received (all MT residents)	30

The comments/responses are included in a Public Comment and Issues Addendum attached to this Decision Notice.

## FINDING OF NO SIGNIFICANT IMPACT

Based on the analysis in the EA and in consideration of public comment addressed in the Addendum, FWP has selected the preferred "Proposed Action" alternative. This decision is in the best interest of the public, wildlife and wildlife habitat resources and is consistent with current Habitat Montana program guidelines, goals and objectives. FWP has reviewed the EA and applicable laws, regulations and policies and has determined that this action will not have a significant effect on the human environment. Therefore, an Environmental Impact Statement is not necessary.

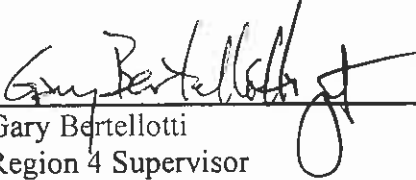

MODIFICATIONS TO ENVIRONMENTAL ANALYSIS AND MANAGEMENT PLAN  
No modifications to the Environmental Analysis, Management Plan or Socio Economic Analysis were made as a result of the public review period.

#### DECISION

Utilizing the Environmental Analysis, Management Plan, Socio Economic Analysis and public comment, a decision must be rendered by FWP that addresses the interests and issues identified for this proposed project. Given results of FWP's analysis coupled with public comment, FWP's purchase of this conservation easement from Voegelé's Inc. utilizing FWP Habitat Montana and Upland Game Bird Program funds, and Partner dollars, is warranted. After review of this proposal and the corresponding public support and comment, it is my recommendation that FWP purchase a conservation easement from Voegelé's Inc. subject to approval by the FWP Commission.

#### CONCLUSION

By notification of this Decision Notice, the draft EA is hereby made the final EA. The finding of selection for the preferred "Proposed Action" alternative is the product of this Decision Notice.

Date

**MONTANA FISH, WILDLIFE & PARKS**  
**Riverdale Ranch Conservation Easement**  
**Environmental Assessment**

**Public Comment and Issues Addendum**

Public comment was solicited on the draft Environmental Assessment “Riverdale Ranch Conservation Easement” from August 10 through September 10, 2010. Written comment totaled 30 responses. Twenty-seven (27) responses endorsed the “Proposed Action” alternative of the draft EA, with three (3) respondents opposing the “Proposed Action” of FWP purchasing a Conservation Easement from Riverdale Ranch. Further analysis of comment follows:

Comment supporting FWP purchase of conservation easement (support “Proposed Action”)	27
Comment opposed to FWP purchasing conservation easement (support “No Action”)	3
Total comments received (all MT residents)	30

**Issues and Comments:**

Twenty-seven (27) individuals and/or organizations commented in favor of the “Proposed Action” for FWP to purchase a conservation easement from Riverdale Ranch. All parties supported maintaining wildlife, wildlife habitats, open spaces and access for recreational purposes in perpetuity. Three (3) commented to oppose the “Proposed Action”.

Comment: Non-hunting access for recreation users - how will that be controlled and handled?  
*Non-hunters (wildlife viewers, hikers, etc) will be able to access the property with Landowner permission. They will be required to park and walk from designated parking areas as described in the Management Plan hunting rules and map.*

Comment: Who controls noxious weeds on the property?  
*As mentioned in the EA, noxious weed control and management will continue to be the responsibility of the Landowner. The landowner(s) will be responsible for complying with standards set by the Cascade County Weed Board.*

Comment: How are you paying for this and what was the appraised price?  
*FWP hired an independent appraiser to appraise the ranch and easement value (Terra Western Associates, Big Timber, Montana). The appraised value attributable to the property equaled \$2,975,000. The appraised value of this conservation easement is the market value of the rights surrendered by the landowner. The appraisal concluded that the property has suffered a diminution in overall value of approximately 60.0% to the land asset, thus the reported value difference for the easement rights is \$1,757,000. FWP has offered a bargain sale value of 40% of the appraised value of the property, or ~ \$1,200,000, for the conservation easement.*

Comment: Railroad Crossing - can people cross legally to the property?

*Riverdale Ranch has two legal access railroad crossings into the property which is where the two recreational access points are located in the Management Plan hunting rules and map. Therefore, the price to be paid for the conservation easement encumbrance is much below the appraised fair market value.*

Comment: What is the liability for landowners and neighbors when it comes to hunting?

*Since the landowner is partnering with FWP and not charging fees for hunting and recreational access through this easement, the landowner inherits the minimum liability in the court of law. The state of MT MCA 70-16- 3 details recreational access and landowner liability as follows:*

***MCA 70-16-301. Recreational purposes defined.*** "Recreational purposes", as used in this part, includes hunting, fishing, swimming, boating, waterskiing, camping, picnicking, pleasure driving, biking, winter sports, hiking, touring or viewing cultural and historical sites and monuments, spelunking, or other pleasure expeditions. The term includes the private, noncommercial flying of aircraft in relation to private land.

***MCA 70-16-302. Restriction on liability of landowner.*** (1) A person who uses property, including property owned or leased by a public entity, for recreational purposes, with or without permission, does so without any assurance from the landowner that the property is safe for any purpose if the person does not give a valuable consideration to the landowner in exchange for the recreational use of the property. The landowner owes the person no duty of care with respect to the condition of the property, except that the landowner is liable to the person for any injury to person or property for an act or omission that constitutes willful or wanton misconduct. For purposes of this section, valuable consideration does not include the state land recreational use license fee imposed under 77-1-802.
